Leadership Direction

"We need to continue...to achieve the growth in capabilities associated with the information age."

**The Honorable Richard Danzig,
Secretary of the Navy**

"The Navy-wide Intranet will increase performance, decrease costs, and improve security. It is a total end-to-end capability. It will make information technology serve our people, not have our people serve the technology."

**Admiral Jay Johnson
Former- Chief of Naval Operations**

Leadership Direction

“We can’t afford NOT to do NMCI.. If we have to do some belt-tightening to fund NMCI, then we will.”

VADM Joe Dyer
Commander, NAVAIR

“All of us in NAVAIR have seen the tremendous benefits that come with increased communications and connectivity. Very few of us could -- or would want to even try to -- do our job without it. Imagine how well our warfighters will be able to function when they have the same ability to communicate as we do. NMCI will give them this ability.”

RDML Bert Johnston
Commander, NAWCWD

NMCI PROPERTY MANAGEMENT & TRANSFER

Goals & Objectives

- What we Know and Don't Know
- Prepare NAWCWD for NMCI equipment transition
- Transition Right Equipment
- Government & ISF Concurrence
- Transition Impact
- Reduce IT Maintenance Budget
- Turn in Maximum Amount
- Reduce equipment to inventory, track and dispose

Property Transfer to NMCI

- CNO Message of 1 July:
 - <https://nmci.nawcud.navy.mil/KB/NavMessage/ownership.htm>
 - ALL equip used to deliver NMCI like services must be transferred; not one-to-one
 - We can't afford to keep devices that are NMCI like so this makes sense; change management issue
 - Windows 2000 compliant non-networked printers may connect to desktops/laptops for free
 - Must purchase wall plugs for any network printers we keep; affordability issue now

Transition Steps

1. CNO Message
2. Concurrence by the Command
 - Spares Process
 - <https://nmci.nawcwd.navy.mil/KB/PropertyNotes/Prop.htm>
 - Reduce Resources for IT Maintenance
3. Notify NAWCWD
4. Review Property list for NMCI items
 - Concurrence/Non-Concurrence
5. Develop equipment ownership transfer list
6. Clean up Property
7. Reconcile transfer list with WDPS

Equipment which Transfers

- Computer Systems, Network Printers, Monitors
 - Performs NMCI like functions
 - POC's can help determine
 - Gov't & On site Contractors
 - Systems no longer needed
- Expect more than one for one trade in per person at WD

Buy Back Option

- Re-Use by ISF
- Sale to DoN users
- Sale outside DoN
- Donation
- <http://www.eds.com/nmci/transition.htm#AssetDisposal>

Equipment Which Does Not Transfer

- Supports Non-NMCI services
 - e.g. WDPS Programmer, IBAR, Web Master, Software Developer
 - Spare Parts (e.g. NIC, Modem, Remote monitor, etc.)
- Legacy Systems server-Non NMCI servers
 - e.g. WDPS, DIFMS, SLDCADA
- Test Equipment
 - E.g. Range Test Computers
- Used for Hybrid seat (CLIN 5)
- Work at home off-line
- GFE to CSS off site contractor
- Uses uncertified COTS or GOTS application
 - <http://www.eds.com/nmci/transition.htm#ULACPC>

Successful Transition

- To ensure correct delivery of NMCI services
 - Notify the Local ISF help desk prior to:
 - Equipment relocating
 - Newly Added Software
 - Modified Hardware
 - User Change
 - Leave Gov't Barcodes, J-Tags and validation ID tag
 - Notify local ISF prior to excessing IT equipment
 - <https://nmci.nawcwg.navy.mil/KB/PropertyNotes/Prop.htm>

Responsibilities

- Competency Manager's Responsibilities
 - Oversee the completion of the equipment transition process
 - Sign validation list
- Equipment Manager's Responsibilities
 - Distribute validation list accordingly (end users)
 - Concurrence or Non-concurrence
 - Identification tag on Concurred items
 - Re-validation process

Responsibilities (con't)

- Equipment Manager's/User's Responsibilities
 - Validate list
 - Equipment Transferring, On list and not on list
 - Check Bar code
 - Add "J" tag # (if any)
 - Check Manufacturer/Model/Serial
 - Add Monitors
 - Add Network Printers
 - Validation ID tag
 - List turn in

Responsibilities (con't)

- Property Management's Responsibilities
 - Review all list's
 - Re-validation notifications
 - Complete mass transfer DD1149 to NMCI user
 - Command concurrence
 - Obtain Command and ISF signature
 - Update WDPS records
 - Bar code removal process
 - Property Management only
